What does the password 62 Bar & Restaurant tell you? Do you know this place? We have a tip for you where to eat an excellent meal, and discover one of the most interesting restaurants in the city! Chef Jarek Kin's menu is a must-have item in the schedule of every culinary lover. 62 Bar & Restaurant looks and tastes like a million dollars. This is Polish and European cuisine in a minimalist, very refined version. The restaurant is located on the top floor of the office building at ul. St. Michała in Poznań, literally above the Harley-Davidson Poznań showroom. The surprising location will impress your guests, not less than the decor and the menu itself.

Despite the hardships of the lockdown, the restaurant did not change its course and maintained a high level of served dishes. Consistency was noticed and appreciated by MICHELIN GUIDE 2023 inspectors, who awarded the premises in June 2023.

There is a convenient, free parking lot in front of the premises.
