

## Cascader Park- adventure park

Cascader Park is an adventure park just outside Poznań.

It offers unforgettable experiences on 4 ropes courses and 2 zip-lines. Our challenges are diverse, of different length and height with graded levels of difficulty - you don't have to be super-fit to enjoy them.

The rope course is a system of platforms and rope barriers installed on trees. Among them there are the Tyrolean bridge, various walkways, diagonal rope (zip-line) slides, hanging logs and beams, loops, mesh, etc. It's an interesting and unique offer for all those who like an adrenaline kick. Cascader Park has two routes for adults (easier and more difficult), and a route for kids. All routes end in the so-called "Tyrolean traverse", one of them up to 60 meters long. Upon entry, visitors are equipped with professional safety equipment (harnesses, lanyards, carabiners, rolls, helmets) and trained how to use all of it. Experienced instructors ensure the safety of all park visitors.
