

"Śnieżycowy Jar" Reserve

A nature reserve founded for the purpose of protection of the few stands of the spring snowflake (a plant found in the mountains) in the Wielkopolska region.

Tourists visit the reserve massively at the turn of winter and spring to watch the blooming snowflake, the harbinger of spring, creating beautiful flowery carpets.

The nature reserve is a part of military training ground. For the reasons of safety the entrance to the reserve is restricted and is usually allowed during weekends.
