

## Vine Bridge new polish cuisine

In Vine Bridge we offer dishes based on regional products, prepared using traditional methods with the use of innovative, modern technologies. The inspiration for their creation was the fascination with Earth and its history, related tastes and smells, travels. Also a conviction that the richness of culinary experiences is hidden in the simplest and closest things.

The Vine Bridge kitchen is the return to dishes which were eaten for generations: groats, breads baked using primitive methods, meats and fishes dressed with herbs, forest fruits. Prepared in clay, over a stone and in fire, with love and passion, using our entire knowledge of cooking, smoking, frying, baking and roasting.

Our courses were proposed in a modern, proprietary form of New Polish Cuisine, in vessels specially prepared for Vine Bridge.
