

Laser Paintball - Arena LaserMaxx

LaserMaxx can be played in single or team player mode in a specially designed, 400m² arena. Inside there are many attractions: a mirror room, a labyrinth, a walking dead room as well as battles between tyres and a wreckage of the iconic Mały Fiat 125p. Additional special effects, ie. lights and energising music will transport every player into a world of laser games and will provide unforgettable experiences.

Join the battle with a laser gun in your hand, armed with a tactical vest with laser-sensitive sensors. A labyrinth filled with nooks and obstacles will allow you to hide from enemy fire. The Arena's another attraction is Sumo wrestling, with its special sponge-filled costumes allowing to gain the necessary weight instantaneously and providing a funny follow-up to the party.
