

'Galos' saline-iodine cave

A fabulous interior, romantic sounds of nature and cozy armchairs are all on offer at a unique site offering a place to rest, breathe sea air and absorb microelements that are invaluable to one's health.

This first tourist attraction of its kind, the saline-iodine cave will help you relax your mind, restore body strength and enhance the treatment effects for many diseases. The facility caters to families, busy business people, and anyone looking to relax, wind down and find an interesting place during a stay in Poznań.
