Hemp potato with cottage cheese à la Makłowicz | August 11-15, 2021

In one of the newest episodes of his program on YouTube (premiere on August 8), Robert Makłowicz visits Wielkopolska again. This time, the pretext is a visit to a field of... cannabis located only several kilometers from Poznań. This field is, of course, completely legal, and the hemp grown there is used to obtain CBD oil. It is in this field that Robert Makłowicz's variation on a dish from the canon of Greater Poland cuisine was spontaneously created - "hemp potatoes with cottage cheese a la Robert Makłowicz".

Hemp in the kitchen is not a novelty, and the return is a forgotten tradition. Poznań chefs are also well aware of this, and inspired by Robert's idea and the availability of a great-quality product, they decided to offer their guests their variation on the hemp flour with cottage cheese, but also to create other dishes using hemp. From 11 to 15 August, during the National Festival of Good Taste, you will be able to try hemp-flavored dishes in Poznań venues.
