

Annual tourism reports

The Poznań Tourism Organisation has published its second report based on the data provided from the Poznań Barometer, a system working thanks to the cooperation of the above mentioned organization and all possible hospitality and tourist facilities in Poznań. The report analyses data from 2013-2015. Poznań Barometer is a first project of this kind in Poland, however it has been effectively functioning for years in countries abroad.

The report is available [here](#) (at the moment only in Polish).
