

# Polish Congress Ambassadors Program

The title of the Polish Congress Ambassador is awarded to persons who in their respective communities, especially foreign, promote and raise awareness of Poland's many attributes, and actively contribute to the choice of Poland as the place for the next international event.

[The Polish Congress Ambassadors Program](#) is run by the Polish Tourism Organization as well as a NGO - the Conferences and Congresses in Poland Association. It aims to promote Poland as the place to organize international congresses and conferences, acquiring congresses and providing effective assistance in attracting such events to Poland via Poles who are active in the structures of international organizations, such as scientists and professionals from various industries.

Below, you can see a list of representatives of the Poznań and Wielkopolska region, awarded in various editions of the Program (scientific titles and degrees are given in their original form).
