

You probably don't know that, and it's worth it!

62 Bar & Restaurant is one of those places that cannot be reached by accident. Located on the 3rd floor of the office building, a bit off the beaten track, it is a magical place available only to insiders. The original dishes of chef Jarek Kin and his team are considered to be one of the most interesting culinary propositions in Poznań, and the restaurant itself is undoubtedly among TOP10 local recommendations. The menu includes fantastic dishes inspired by Polish and European cuisine. The restaurant, decorated in a casual style, perfectly reflects the idea of "smart casual", although refined dishes would easily fit into the formula of "fine dining". We already miss the phenomenally served czernina soup, lokal szagówka and pumpkin dessert ☺☺ You must try them all!
