

# Edison vineyard

The first bottling of wine from the Edison vineyard, located on the border of Poznań and Baranów (Lumière Restaurant & Best Western Hotel Edison), is about to take place. It will be a blend of Solaris (85%) and Muscaris (15%) strains. We liked this light, universal wine with aromas of citrus, peach and nectarines ☐ We must admit that it fits perfectly into the summer weather ☐ If you are interested in this topic, please follow the profile of the Lumière restaurant. The number of bottles is limited!

The Edison Hotel is a large space on the administrative border between Poznań and Baranów. The Best Western Edison Hotel and the adjacent Lumiere Restaurant are surrounded by a forest and right on the shores of Lake Kierskie. The restaurant, popular with families, attracts with tasty food, a large, sunny terrace and the possibility to spend time outdoors. In the hotel itself you will find a banquet and conference room, and right next to it, there is a grill house and a small vineyard. June 2021, the premiere of the first wine. It will be a blend of Solaris (85%) and Muscaris (15%) strains. We really like this light, universal wine with aromas of citrus, peach and nectarines. I must admit that it fits perfectly into the summer aura. The winemakers from Baranów are preparing three different wines, two white and one red. It will be riesling and pitot noir wines.

If you are interested in this topic, please follow the profile of the Lumière restaurant. The number of bottles is limited and only a few will have a chance to taste the premiere offer of the Edison Vineyard. It is worth thinking about booking today and asking about the possibility of participating in tastings.
