

Lookout Tower on Dziewicza Góra

A fire observatory, now known simply as the lookout tower, has been built on the highest point of Dziewicza Góra.

It is now mainly an attraction for tourists who, having climbed 172 steps, can enjoy a panoramic view of Czerwonak County and the nearby Poznań as well as trees and hills of Zielonka Forest. The tower is 40 meters high. The viewing platform available to visitors is at the height of 30 metres, and a very well equipped gamekeepers observation point is placed right above it.
