

Pepsi Summer Sled Track

Malta Ski is a recreational and leisure complex located near the very centre of the city, at picturesquely situated Maltańskie Lake. The toboggan run is over 500 meters of sliding fun, where skids were substituted by wheels, and the snow by a steel pipe.

The toboggan run is located on the slopes of Kopiec Wolności hill, the highest hill over Malta Lake. It gives you a chance of having 530-meter-long crazy runs down a twisting and turning steel gutter in special carts, which imitate sleighs. The route is diversified, with lots of turns and gradient changes - it will surely give you a thrill! It is great fun and completely safe as well. The maximum speed of the wheeled carts is as fast as 50 km/h! If such speed makes you dizzy - do not worry: you can control the speed of the cart with a hand brake! The toboggan run is equipped with a lifting device, ensuring quick transport to the top.

Organized groups can book the toboggan run for a specific time or have timed competitions organized.
