

The largest Gaudi exhibition in Europe from March 5 in Poznań

Antoni Gaudí is one of the greatest, most recognisable and admired figures in the history of art. The Zamek Culture Center in Poznań invites you to an exhibition devoted to it, which will be on display from March 5th to July 3rd, 2022.

Antoni Gaudí was a genius architect, visionary, "wizard of architecture", but also an ecologist who applies the principles of recycling in his works. His modernist, even revolutionary architectural concepts and unique talent - aroused and still arouse - huge emotions.

About 150 exhibits will be presented at the exhibition (plans, models, drawings, sculptures, furniture, architectural elements, ceramics, photographs, videos, mappings) from the collections of Spanish public and private institutions.

It will be the first in Poland and the largest in Europe such extensive presentation of the achievements of a Spanish architect. We invite you to wander through the astonishing world of Gaudí: from the project of the La Obrera Mataronense cooperative, through the Palace of Güell and the houses of Calvet, Batlló and Milà, to the Sagrada Família, his most famous work.
