

# June in Poznań

In June Poznan will turn into a festival city. You can enjoy festivals such as Ethno Port and Malta Festival. Think about visiting Poznan in June if you like cities where a lot is going on!

## Ethno Port Poznań 2017

7.06-10.06.2018

Venue: Centrum Kultury ZAMEK, ul. św. Marcin 80/82

The Festival is undeniably one of the leading world music events in the country, also known to and appreciated by international journalists, musicians and promoters.

Apart from 15 concerts taking place over the four days of the festival, there will also be music workshops, a dance party, educational activities for children and young people, as well as meetings combined with film screenings, during which we will try to understand the major challenges of our times. For several years now, one of our chief themes is reflection on the biased narratives concerning migrants and refugees which, albeit based on unfounded fears, predominate in our country.

## Malta Festival Poznań

15-247.06.2018

## MALTA FESTIVAL POZNAN

Venue: different locations in the city

Does Malta Festival, Poznań's most famous festival event, need any further introduction? It actually does, as it is different each year, and has been for 25 years now. What began as the celebration of street theater, now lasts nearly a month and it is a difficult task to find an area of art it has not yet tackled. The intervention in the urban social space has also become an increasingly vital part of the festival's mission and program.
