

The triumph of colour. French masterpieces from the turn of the 19th and 20th centuries in Poznań

Alfons Mucha, Auguste Renoir, Pierre Bonnard, Lucien Pissarro, Henri de Toulouse-Lautrec, Paul Signac. What connects them? Their works of art will be shown at the ZAMEK Cultural Centre from 10th September till 11th December 2022.

In the [Cultural Centre](#) you will find more than 100 graphical works created by some of the finest French artists of the 19th and 20th century. Collection will follow the development of the use of color in graphics, which was previously the primacy of black and white.

The exhibition is accompanied by an extensive educational programme consisting of specially prepared lessons, meetings, lectures and workshops.

The exhibition can be viewed with an audio guide.
